Phone: \_\_\_\_\_

Email: \_\_\_\_\_

Check that you have included each of the following:

A list of planned courses necessary to complete the BEE degree requirements (the semester and year in which the courses will be taken should also be noted as some courses are offered alternate years )

A list of planned graduate level courses necessary to complete the M.S. degree requirements (the semester and year in which the courses will be taken should also be noted as some courses are offered alternate years).

Copies of all University of Minnesota transcripts.

Photocopy of Graduate School application form

Photocopy of your Statement of purpose

Two letters of recommendation, one of which must be from a member of the University of Minnesota Electrical Engineering Graduate Faculty.

We normally require that students complete the GRE Verbal, analytic and quantitative sections for consideration to receive financial aid in our graduate program. Completion of the GRE is not required for admission to the BEE/MSEE program. However, because students must complete the GRE to be considered for certain fellowships, we recommend that the GRE be taken during the senior year.
